

Sundancer SE.
You'll know you've arrived.

Arrive in style

A smaller motor home doesn't have to look like a budget model. Or perform like one either.

The Itasca Sundancer® SE is in a luxurious class by itself. Inside and out, Sundancer SE proves that a little extra style goes a long, long way.

You'll see the difference in our sleek exterior lines. If they look like they were carved by the wind, it's because they were. Sundancer SE is engineered for aerodynamic efficiency.

Inside, the look and feel is pure, classic luxury. This is one mini that lets you make the most of your world.

From its brilliantly appointed galley, to its full bathroom, to storage space that seems to pop up from every nook and cranny, Sundancer SE is a sumptuous, superb home on the road.

Glowing woods and warm colors highlight the plush fabric of the sprung couch and dinette. Up front, matching hi-back bucket seats tilt, swivel and slide to help melt away the miles. So, too, does that smooth riding, bump beating Chevrolet chassis.

Other standard features in the cab include tilt steering wheel, full carpeting, handy beverage tray and a quality radio with 4 10-oz. speakers.

Important options include our 5 year/50,000 mile Traveler's Protection Plan and Itasca's Dual/Fuel system which lets you travel on gasoline or switch to safe, economical propane gas.

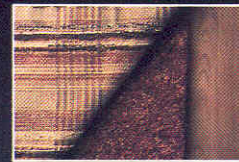

Take a long, lingering look at Sundancer SE, the extravagant mini motor home with the unexpectedly affordable price tag.

You'll know you've arrived.

Sundancer 19RB is Itasca's least expensive model, but that certainly doesn't mean we cut any corners. No other mini pampers you with so many exciting features at such an affordable price. After all, it's an Itasca.
