

2011

CAMBRIA

 SMARTSPACE

BEST OF BOTH WORLDS

With distinguished styling and robust features, the 2011 Itasca Cambria® is setting a new standard for Class C motor homes. The double-slide 28B and triple-slide 30C provide amazingly roomy interiors full of key amenities that maximize comfort and functionality.

You also get the automotive performance of a sleek Class C that just begs to be driven. Don't be surprised if your weekend out of town becomes a longer getaway as you find new freedom in your very own Itasca Cambria.

DESIGNED FOR ENTHUSIASTS

Owners love their Itasca motor homes, and with good reason. The Recreation Vehicle Dealer Association annually bestows the Quality Circle Award to manufacturers that provide

exceptional products, service and support. Only one manufacturer has received this award for fourteen consecutive years: Winnebago Industries®, proud manufacturer of the Itasca Cambria.

THE PERFECT FIT

The Cambria offers two unique floorplans to perfectly fit your traveling needs. The 28B features a large U-shaped dinette and a Euro chair in soft UltraLeather.™ The 30C comes with a classic dinette and a sofa that can be upgraded to the Rest Easy® multi-position lounge or the Comfort Sofa Sleeper. This innovative sofa quickly opens up to reveal a self-inflating mattress.

Each model boasts a complete entertainment center above the cab that includes a 26" LCD TV, home theater sound system and DVD player. For

even more programming flexibility, choose the Your HD compatible satellite receiver (requires the available King-Dome® in motion satellite system) and you'll have the ability to turn your DISH Network® programming on and off as you desire—an RVer's dream come true.

The interior upgrade package, which includes a dash appliqué, range backsplash, rope lighting, solar/blackout roller shades, the BenchMark® full-comfort dinette with the Dream Dinette™ table (30C), can enhance your Cambria even further.

Interior Features

- Full-Featured Galley
- Skylight
- 26" LCD TV
- Available Comfort Sofa Sleeper (30C)

Comfort Sofa Sleeper

This 2-in-1 sofa, available in the 30C, redefines comfort and convenience.

- 1) By day it's a plush sofa.
- 2) It converts easily into a bed.
- 3) The mattress inflates and deflates with an automatic pump.

GET YOUR REST

A rear slideout provides a spacious setting for the walk-around queen bed. Additionally, a large wardrobe lets you pack for your extended travels. Watch TV or movies in the comfort of your bed on the 19" LCD TV while accessing the front DVD player through the video selection system.

In the bathroom, the spacious shower includes a flexible showerhead and a skylight. Choose the 30C for an elegant curved glass shower door or the 28B for a self-cleaning, retractable shower door.

No Shortcuts – No Compromises

You can compare features. You can compare styles. But when it comes to quality construction, there is no comparison. Only motor homes manufactured by Winnebago Industries harness the legendary strength and durability of our SuperStructure® construction process—a process we've been perfecting for more than 50 years.

SuperStructure means a solid framework, steel and aluminum substructures and components built in-house to our exacting standards. It means managing each detail to ensure the integrity and quality of every coach. It means barcoding parts to save time and frustration during service and running every coach through a high-pressure leak test before it leaves the factory.

Where other manufacturers cut corners, SuperStructure ensures the features you can't see are treated with the same care as the ones you can. When you buy an Itasca motor home, you are getting a coach that is built for you—and built to last.

The crowned, one-piece **fiberglass roof** is backed by a 10-year limited parts-and-labor roof skin warranty. Fiberglass offers superior strength and durability over less attractive rubber roofs found on so many competitive models that can streak and degrade over time.

SUPER STRUCTURE®

Durable, lightweight **Thermo-Panel® sidewalls** combine fiberglass, high-density block-foam insulation and the inner wall surface with aluminum support structures.

Metal substructures secure cabinets and appliances to add safety and stability.

An **electrodeposition coating** helps protect critical steel components.

Specially engineered **interlocking joints** connect the floor, sidewalls and roof into a cohesive unit.

CONVENIENCES ABOUND

Upgrade the standard RV Radio® to include a 6.5" touch screen that also incorporates the rearview monitor. It also includes a handheld remote and an iPod/MP3 input. Sirius® Satellite Radio can be added and comes with a six-month complimentary subscription.

Keep systems in check by monitoring everything from the OnePlace® systems center. This includes the TrueLevel™ holding-tank monitoring system that uses sonar technology for accurate readings every time.

Highlights:

- OnePlace System Center
- TrueLevel Holding-Tank Monitoring System
- Power Mirrors w/Built-In Defrost
- Available Power Awning
- Power Entrance Step

TAKE A TOUR

We're proud of our processes, state-of-the-art facilities and the people who make Winnebago Industries number one. We invite you to visit our complex in Forest City, Iowa, for a first-hand look at the dedication and technology behind every motor home we build.

Warranty⁶

12-month/15,000-mile basic warranty,⁷ 36-month/36,000-mile limited warranty on structure,⁷ 10-year limited parts-and-labor warranty on roof skin⁷

1 The height of each model is measured to the top of the tallest standard feature and is based on the curb weight of a typically equipped unit. The actual height of your vehicle may vary by several inches depending on chassis or equipment variations. Please contact your dealer for further information.

2 The load capacity of your motor home is designated by weight, not by volume, so you cannot necessarily use all available space when loading your motor home.

3 Capacities are based on measurements prior to tank installation. Slight capacity variations can result due to installation applications.

4 Capacities shown are tank manufacturer's listed water capacity (W.C.). Actual filled LP capacity is 80% of listing due to overfilling prevention device on tank.

5 Actual towing capacity is dependent on your particular loading and towing circumstances which includes the GVWR, GAWR, and GCWR, as well as adequate trailer brakes. Please refer to the Operator's Manual of your vehicle for further towing information.

6 See separate chassis warranty.

7 See your dealer for complete warranty information.

NA Not Available

Not all items available in combination. See dealer for details.

Winnebago Industries® continuing program of product improvement makes specifications, equipment, model availability, and prices subject to change without notice. Comparisons to other motor homes are based on the most recent information available at printing.
